PROFESSIONAL PROFILE

Stephen Kahwiti

Founder, operator & software builder

Harare, Zimbabwe

kahwitisteven@gmail.com

I build and operate software for the everyday work of African businesses. My work connects product vision, hands-on development and business operations across commerce, LPG operations and accounting.

LEADERSHIP & PRODUCT WORK

Layby Africa — Founder & CEO

Platform vision, product development and operations for a layby commerce platform.

Millennium Management Group — CEO

Group leadership across software products and operating businesses.

Millennial Ultra Solutions — Director & Company Secretary

Business leadership and company governance.

FLUX — Originator & owner

An LPG operations platform connecting retail activity and operational workflows.

Till Yi — Owner

A multi-company accounting product for business books and records.

EARLIER EXPERIENCE

Build Smart Management Group

Construction Manager | 26 February 2022 - 26 February 2023

Commerce & delivery

06 entries / 26 across the complete portfolio

01 **Layby Africa / ZimLayby** — Founder & CEO

Multi-store layby commerce connecting customer applications, instalments, inventory reservations and retailer operations.

02 **Youze Africa** — Product & software development

Cross-border shopping requests, quotes, order tracking and fulfilment workflows between South Africa and Zimbabwe.

03 **Tech Sales Africa** — Product & software development

A multi-shop device catalogue with recorded orders, stock reservations and a handoff to the seller.

04 **Appliance & Home** — Business leadership & retail software

Appliance and homeware retail, with a cash-shopping website alongside the group’s layby channels.

05 **ROSI Express** — Website & ordering development

Fresh-produce packages, customer ordering information and delivery-oriented shopping journeys.

06 **Deliver Now** — Software development & collaboration

Delivery booking, dispatch, courier onboarding, tracking and merchant workflows.

Business systems

10 entries / 26 across the complete portfolio

07 **FLUX** — Originator & owner

LPG sales, cash-ups, stock and reconciliation. Includes the Nexas Gas client implementation.

08 **Till Yi** — Product owner

Retail sales, stock, purchases, laybys and multi-company double-entry accounting.

09 **Lavo Africa / Wacha** — Product & software development

Laundry bookings, order tracking and branch operations, developed through the Wacha Smart Laundry implementation.

10 **Tasks by MMG** — Product & software development

Team task capture and allocation, boards, meeting records, shared lists and reminder workflows.

11 **FLUX Payroll** — Product & software development

Payroll records and calculations, payslips and reporting for business teams.

12 **InstaBOQ / BuildSmart** — Software development

Construction planning, estimating and bills of quantities, with professional review of estimates.

13 **Zino / EarnLink** — Product & software development

Referral campaigns and commission tracking. Zino is the public brand running on EarnLink.

14 **Ultra Pay** — Product & software development

Branded checkout and payment-status coordination across business products. A Millennial Ultra Solutions product.

15 **Budget Health** — Client software development

Member services, claims administration, contribution records and provider workflows.

16 **Help Me** — Community software development

WhatsApp-based assistance requests and helper matching across local and international corridors.

Web & client work

04 entries / 26 across the complete portfolio

17 **Guide Construction** — Client website development

A construction company website presenting services, projects and clear enquiry routes.

18 **Tevel24** — Client website development

A plant and tool-hire website with structured enquiries and booking handoffs.

19 **ParcelPro** — Website & quoting development

Parcel-service information and quoting interfaces for UK and international shipping.

20 **Bluerock Projects** — Client website development

A construction portfolio website with project galleries, enquiry handling and project administration.

Experiments & tools

06 entries / 26 across the complete portfolio

21 **Sunrise Distribution** — Client prototype development

A distribution-workflow prototype exploring rep load-outs, deliveries, collections and daily reconciliation.

22 **Hivo** — Prototype development

A property-operations prototype exploring rental records and collection workflows.

23 **Pulse** — Internal software development

Internal, cookieless analytics for examining activity across websites and commerce funnels.

24 **PopDetecto** — Software component development

A reusable software component for parsing payment references and checking duplicate payment evidence.

25 **Millennial Ultra Discovery** — Service & software development

Resumable business discovery, optional AI-assisted scoping and proposal drafts for human review.

26 **Ultra Build Console** — Internal software development

Internal infrastructure oversight, build and release evidence, and approval workflows.
